Executive summary

- Healthscope employs 600 Tasmanians, who work in two Hospitals in Hobart - Hobart Private Hospital and St Helens Private Hospital.
- The numbers employed will be dependent on eventual contract struck with the DHHS, but at this early stage we estimate that we would hire the following positions above existing Tasmanian based staffing compliment: 2-3 Administrative Staff: 2 Nursing Staff and 1 Finance Staff. Employing more people in Hobart is the main benefit to the local economy identified in this tender response.
- Healthscope has existing supply chain arrangements in place to service all of the case mix and volume in the procurement documentation. We intend however to work with the public hospital supply departments in order to ascertain if there are opportunities to obtain prosthetics and higher cost surgical items at the best possible rate in order to provide value to the State in the delivery of this service.
