

RESPONSE SCHEDULES

Response Schedule E – Tasmanian Industry Participation Plan

Tasmanian Industry Participation Plan (template/guide)

The Tasmanian Government is committed to maximising opportunities for local SME¹ businesses to compete for and win Government procurements. Suppliers/proponents are requested to prepare a Tasmanian Industry Participation Plan:

- For all procurements with a value exceeding \$5 million;
- For nominated procurements (at the discretion of the procuring Government entity) greater than \$2 million and up to \$5 million; and
- For private sector projects valued at over \$5 million that receive support, including in-kind support, valued at or greater than \$500 000 from the Government.

This Plan is your opportunity to demonstrate how your submission will positively impact on the local industry/economy. You do not need to answer all of the questions below and your submission may not necessarily be limited to these issues (which are provided as prompts). You will need to ensure you can verify the information you submit and where possible should provide actual numbers of staff (full-time equivalent)/values of goods and/or services.

For procurements, the Tasmanian Industry Participation Plan is an essential part of your submission and will be used by the procuring entity to evaluate your submission. In these circumstances, the Plan will contribute a minimum of 10% of the procurement evaluation. Suppliers that fail to submit a Plan will receive a zero score in relation to this criterion.

Opportunity for local SME involvement

Will you source components of your offer from other local SME companies/sub-contractors or is there new work to be undertaken locally as a result of you fulfilling the contract or workers travelling to the local area to undertake the work? How much?

All work involved with the contract will be handled by the current Victoria/Tasmania team that is currently in place. The delivery of goods will be made by local staff in Tasmania employed with TOLL priority.

Detail how you intend to identify and engage with sub-contractors and/or other SMEs in relation to the delivery of the contract including your supply chain ie use of existing supply chains, advertising of sub-contracting or supply opportunities, liaison with industry groups, etc.

Please refer to above answer.

Detail the process that you are to undertake to ensure that local SMEs are not to be disadvantaged where competing with other suppliers in the provision of goods or services to be used as part of this contract (ie unpacking of procurements into smaller components so that local SMEs can compete more effectively etc).

The processes to be undertaken will not disadvantage local SME. No changes to disadvantage the local community will be made to the processes that are currently in place. If any, it will allow for higher demand by TOLL priority local staff to deliver goods as per requirements.

Broader economic opportunities

Are there any other impacts that your business and/or this specific supply will provide to the local/regional economy?

N/A

Note: *Where determined appropriate by the procuring entity, the supplier's obligations under this Plan are to be captured in the contract and monitored as part of the contract performance.*
