Executive summary

Johnstone McGee & Gandy Pty Ltd (JMG) is a wholly Tasmanian owned business located in Hobart and Launceston. The business is owned exclusively by staff of the business with ownership available to all employees working more than 75% full time after serving a minimum of 6 months. Current employee numbers are 51. With all staff based in Tasmania, a large percentage of the company's revenue flows directly back into the Tasmanian economy.

JMG intend to work with wholly Tasmanian owned businesses to provide goods and sub-consultant services to assist them to deliver the services under this contract with the Department. Sub-consultants have been arranged for services such as Geotechnical & Geomorphology; Flora & Fauna; Land Survey; and Traffic Engineering. As a result of JMG providing their services to the Department, construction projects will result which will result in job creation and supply of goods and services associated with construction.

JMG have been providing services throughout Tasmania for over 50 years and have a very good knowledge of local supplies and sub-consultants, and hence have existing relationships to ensure minimum risk to the Department. Each project will be negotiated once the project brief is received and the Department will review all sub-consultant proposals.

JMG have a definite preference for local Tasmanian owned organisations, and have partnered with those they consider are adequate to handle the largest projects that we may be required to deliver under this contract.
