Executive summary

Direct Locksmiths (Tas) is a local SME with our offices and workshop located in Ulverstone. We currently employ four fully trained security professionals, three of which are in fully maintained mobile work platforms servicing the North, North West & Western regions of Tasmania. Immediately no additional SME jobs will be required as the exact work load is not defined in this tender. Should installations increase we would consider additional employment including apprenticeships.

Components are sought from our nominated supplier in the first instance and should supply not be available, for the purpose of the contract we would only consider other local SME to provide it and sub-contractors will be used if required.
