### **Executive summary**

Innovative Electrical is a privately owned equal opportunity company currently employing nine Tasmanians including and recently engaged Innovative Electrical engaged its first female apprentice. The office is located in Southern Tasmania and Innovative Electrical currently provide services for the Tasmanian Government. In the interests of efficiency, Innovative Electrical may choose to use subcontractors in regional areas.

As a service based business servicing Tasmania state-wide over many years, Innovative Electrical has strategically placed subcontractors in place at key locations. These contractors work in conjunction with our permanent employees to provide an efficient and timely service to our clients. The relationships and systems are in place and in some cases have been in place for up to 15 years. Innovative Electrical employs apprentices and has a policy of ongoing training for our staff to keep abreast of technology, products and practices.
