Executive summary

Matrix Security Integration is locally owned and operated, specialising in electronic security and locksmithing, with our showroom located at 149 Main Road Moonah. We currently undertake state wide work on a daily basis, from Stanley to Strahan to St Helens to Dover and everywhere else in between, there is nowhere in Tasmania we don't currently provide prompt service.

Matrix Security Integration are members of ASIAL (Australian Security Industry Association Limited) and the MLAA (Master Locksmiths Association of Australasia). We are SCEC (Security Construction and Equipment Committee) endorsed locksmiths, which is an endorsement required to provide locksmithing services to certain government and military sites. We are Tasmania's preferred BiLock Exclusive 'High Security' Key System distributor. Our security technicians have extensive experience in providing professional service and installations of electronic security systems, including but not restricted to, Tecom Challenger alarm systems, Honeywell, Pacom and Axis CCTV System products.

Our business has grown from two to seven employees within four years, with a business plan of employing more staff members as the need arises to ensure our unparalleled level of service is maintained. In addition, Matrix Security Integration has professional relationships in place with experienced security technician and locksmith subcontractors who are available on request, in between the employment of new staff.

Matrix Security Integration supports a host of local Tasmanian businesses wherever possible and donates to a number of local charities and causes along with monthly donations to Camp Quality and the Carbon Neutral Charitable Fund.
