Executive summary

The Temporary Power Rental Agreement with APR Energy Holdings Limited will positively impact the local industry/economy due to the following aspects:

- APR Energy Holdings Limited will employ local staff as to assist as maintenance of the hired equipment and auxiliaries for the duration of the contract.
- Local staff will gain new skills and experience in specialist equipment through this contract to make them better placed for future opportunities. This can assist the broader community where the skills are transferable.
- The APR Energy Holdings Limited personnel engaged for the contract will reside in local proximity to the sites across the state.
- APR Energy Holdings Limited will utilise a number of Tasmania companies for core work activities as well as support services and accommodation. Sub-contractors and suppliers will be used for civil and concreting works, mechanical and piping installation, electrical installations services, fabrication of steel plates and structures, supply of hydraulic jacks, hire of cranes and supply of oil, copper cable and SF6 gas.
- The diesel required to operate the power station sites will be sourced from major suppliers with local transport company providers engaged for deliveries.
- APR Energy Holdings Limited has a preference to procure non-specialised parts from the local market in Tasmania. A minimum of three comparable quotes are obtained from local providers to ensure that local SMEs are not disadvantaged when competing with other suppliers from APR Energy Holdings Limited's network.
