

# Tasmanian Industry Participation Plan Executive Summary

## Procurement details

<b>Procurement ID</b>	3012003397
<b>Procurement title</b>	TVPS FT8 refurbishment for 2 engines
<b>Name of Responsible Agency/Entity</b>	AETV Pty Ltd

## Supplier details

<b>Name of supplier</b>	Mitsubishi Power Aero LLC.
-------------------------	----------------------------

## Executive summary

MPA scope includes the 25,000h Hot Section Inspection for two Gas Generators, which form part of TVPS FT8 fleet. The engines have been historically used for the provision of emergency power and grid stabilization in Tasmania and have reached their shop inspection Interval.

MPA will carry out the shop inspections/repairs in accordance with the maintenance manual in a dedicated MPA repair facility, located in Connecticut USA.

Although the entirety of the scope will be carried out overseas and there are no opportunities for sourcing parts/ components or services locally, primarily due to the speciality of the product line and expertise required, the Tasmanian community will benefit economically and socially by the provision of reliable and flexible generation capacity which will support the Hydro Power system.

Signed for an on behalf of Mitsubishi Power Aero LLC on 19 February 2026
