Procurement title	Supply of Equipment for Bastyan, Mackintosh and Reece Power Station Turbine Upgrades
Name of Responsible Agency/Entity	Hydro Tasmania

Supplier details

Name of supplier	Voith Hydro GmbH & Co. KG
-------------------------	---------------------------

Executive summary

The supply of equipment by Voith Hydro GmbH & Co. KG for Bastyan, Mackintosh and Reece Power Station turbine upgrades will positively impact the local industry/economy for the following reasons:

- The equipment to be provided by Voith Hydro has been selected as the optimum design providing both maximum efficiency and flexibility of operating range to improve generation outputs for Hydro Tasmania and ultimately greater returns for the broader Tasmanian community and economy.
- The proposed equipment to be supplied by Voith Hydro has been assessed against performance criteria to provide the best value for money of all proposals tendered.
- Hydro Tasmania will utilise several Tasmanian companies and sub-contractors to provide local labour services to deliver the onsite installation works for the Voith Hydro supplied equipment.
- The installation teams to be engaged by Hydro Tasmania to install the Voith Hydro supplied equipment reside locally across the state.

- During the multiple turbine upgrades, Voith Hydro personnel required to attend for project delivery activities will utilise local accommodation and food and beverage services whilst located in Tasmania.
- During the execution of this contract Hydro Tasmania staff and sub-contracting personnel will be provided information and training by Voith Hydro that will assist in further developing the local competence in turbine refurbishment activities. This will help to ensure Tasmanians gain new skills and experiences and be better placed for future opportunities and asset development.
