Procurement ID	3012002225
Procurement title	Bell Bay Power Station Demolition
Name of Responsible Agency/Entity	Hydro Tasmania

Supplier details

Name of supplier	McMahon Services Australia Pty Ltd
-------------------------	------------------------------------

Executive summary

McMahon Services are not a Tasmanian SME, but are in the planning stage of opening an office in Tasmania with the relevant opportunities. If the Tasmanian Hydro project was secured, this would progress this with the hope of employing local people for our Tasmanian office.

We will encompass a wide range of services for the project. Subcontractors will be engaged on a contract basis for either a fixed lump sum with a scope of works or a wet/dry hire basis.

Opportunities for local existing apprentices will be pushed and we will target a 10-20% engagement for each discipline. McMahon Services has MAC Training Academy, which provides training internally allowing staff to become upskilled, with a performance plan developed upon employment.

Opportunities we will look into if successful is not only local engagement but also Indigenous engagement and the possibility of starting a new apprenticeship program for locals.
