Executive summary

- As a proud Tasmanian SME, our commitment to the local community is paramount. With a workforce of between 20-25 Tasmanians, we prioritise providing employment opportunities for locals.
- All goods and services identified in our submission are provided directly by our business. However, in cases where additional goods and services are required, we prioritise sourcing from Tasmanian SMEs. This collaborative approach not only strengthens local businesses but also ensures the value generated stays within the Tasmanian economy.
- By employing locals, utilising local suppliers and prioritising skill development, we contribute to the resilience and vitality of the Tasmanian economy. Collaborating with entities like Hydro opens avenues for new skills and expertise to be cultivated within Tasmania, enriching the local workforce.
- We anticipate appointing new trainees or apprentices, with plans to onboard an apprentice as a fitter and turner and potentially another as a sheet metal worker. While pathways to employment for disadvantaged Tasmanians are currently under consideration, we are dedicated to exploring avenues to support and uplift marginalised members of the community.
