Supplier details

Name of supplier	CommTel Network Solutions Pty Ltd
-------------------------	-----------------------------------

Executive summary

- CommTel is a long-established provider of Communications equipment and services in Tasmania, with its HQ in Melbourne Victoria.
- Equipment supplied by CommTel, whilst not manufactured in Tasmania, will be developed and manufactured in Australia, rather than overseas.
- The scope includes the widespread deployment of the equipment across Tasmania. This fieldwork will be undertaken by a local Subcontractor – ComStar.
- Local services, such as accommodation, car hire, catering and consumable supplies needed for the project will be required for the duration of the project.
- The limited scope and duration of the project will not require the direct hire of additional staff by commTel in Tasmania, but CommTel seek to build on the success of this project, and other engagements with other clients in Tasmania, to establish a more permanent local presence in the medium term.
