<b>Procurement title</b>	Distribution Design Services
<b>Name of Responsible Agency/Entity</b>	TasNetworks

### Supplier details

<b>Name of supplier</b>	Framework Power Pty Ltd trading as Electro Technical Consultants
-------------------------	--

### Executive summary

To enable us to service TasNetworks adequately, we have arranged for Mr. Murray James of Ascension Consulting Pty Ltd. to serve as our Tasmanian partner. Murray would provide a point for local contact and liaison with TasNetworks and other stakeholders and enable us to obtain local information in an expeditious manner.

Initially, we would work from Ascension's offices, but if the volume of work to be issued warrants it, we would consider establishing a local office and engaging additional local design staff. We have already held discussions with several people in Hobart with design/engineering/drafting experience regarding employment with Electro. Our initial emphasis would be in obtaining staff to carry out field survey work and local liaison/negotiations. As things progressed, we would then look at having design and drafting carried out in Tasmania.

*Guidance note: The executive summary should be a brief overview of the information contained in the Tasmanian Industry Participation Plan, highlighting how the business will positively impact on the Tasmanian community.*

*Information provided in the Economic and Social Benefits Statement may be used as a guide.*

*The summary can be in point form, addressing aspects such as:*

- the impact of the business;*
- the goods and services to be utilised in the contract; and*
- any broader economic and social benefits.*
